

What we do

We work with local partners and communities to fight injustice, respond to humanitarian emergencies, campaign for change, and help people claim the services and rights they are entitled to.

We aim to end poverty and injustice worldwide by working in partnership with local organisations, as well as with governments and the private sector. Our work includes helping people to:-

access services such as healthcare and education

make the most of opportunities, such as being able to sell their produce for a fair price.

become more resilient to shocks and disasters such as drought, climate change and hurricanes

ensure they are not discriminated against for any reason
